MEMORANDUM FOR: Chief, Operations Support Branch

25X1

FROM:

Operations Support Branch

SUBJECT: Liaison Contact

1. On 13 March 1985, the undersigned and ▢ 25X1
Domestic Security Branch, PSD, established liaison with
representatives of the Metropolitan Police Department (MPD) to
discuss matters of mutual concern. Present were Assistant
Chief of Police, William R. Dixon, Inspectional Services
Bureau; Lt. Donald E. Blake, Criminal Intelligence Branch; and
Detective Jack W. Maul, Investigative Services Division. The
topic of discussion involved ▢ 25X1
numbers listed to the "Central Intelligence Agency" which
surfaced during comparative tests between AT&T's Chicago
database and MPD's local Geodatabase now under development.
The new MPD database is part of a new third generation "911"
Police and Fire Emergency System scheduled to begin operation
in early 1986. (C)

2. OSB's objective was to establish liaison between
responsible MPD officials and ▢ DSB, the focal 25X1
point officer for OS, so that the impact on Agency activities
posed by inclusion of Agency ▢ numbers in 25X1
such a database could be explored by DSB. The meeting was
cordial and informative for all. At the conclusion, it was
agreed that MPD would maintain contact with ▢ 25X1
regarding any further anomalies that surfaced. Initial
concerns of both parties were alleviated significantly for the
present. ▢ will prepare a detailed report 25X1
regarding his findings on the operation and security aspects of
the new "911" System. Since this matter is now under the
purview of DSB, it is recommended that no further action be
taken by OSB. (C)
